

### DOI Work Activity 7A: Reduce Hazardous Fuels - Prescribed Fire (non-WUI)

<b>Program Area:</b>	Wildland Fire Management
<b>End Outcome Goal:</b>	PEO 1 - Improve Health of Watersheds, Landscapes, and Marine Resources that are DOI Managed or Influenced in a Manner Consistent with Obligations Regarding the Allocation and Use of Water
<b>Intermediate Outcome:</b>	PIO 1.1 - Restore Watersheds and Landscapes
<b>DOI Sub process:</b>	4d - Conserve resources (perform resource treatments)

#### Examples/Notes:

**Work Activity Description:** Treatments to reduce the buildup of hazardous fuels outside the wildland urban interface to support land/resource management plan goals and objectives to restore or maintain healthy forests and rangelands using prescribed fire. Where multiple treatments are necessary to meet fuel treatment objectives, such as mechanical treatment followed by prescribed fire, each treatment is counted individually and reported to the specific work activity.

Costs for this activity include:

- Salaries, benefits, travel and supplies for personnel directly involved in planning fuels management treatments outside the WUI including: staff time for collaboration (outreach, community workshops, meetings, public meetings, etc.) with other entities and the public, consultation with tribes, risk assessments, NEPA and ESA analyses, mitigation planning, condition class assessments, identification of treatment needs, coordination and cross walking with other existing implementation plans, compliance with state (e.g. smoke), other federal, and local laws, third party contracting, burn plans, etc.
- Salaries, benefits, travel and supplies for personnel directly involved in preparing and implementing fuels management treatments within the WUI including: on-the-ground manipulation of vegetation and soil, contracts, equipment, equipment rental, initial treatment effects monitoring, plot establishment, aircraft flight time, and initial construction of fuel breaks designed to protect the WUI
- Training in fuels treatment methods and techniques
- Developing fuels treatment methods and techniques
- Document preparation such as printing, collating, and distribution,
- Training associated with preparing staff to complete plans, research and data searches and GIS associated activities.
- Training associated with developing and attending NWCG certified prescribed fire curriculum

This activity does not include costs for cultural and historical surveys, T&E species surveys, and archeological surveys.

<b>Output:</b> Acres treated	<b>Unit of Measure:</b> Number of acres treated by prescribed fire outside the WUI
<b>Inputs:</b>	<b>Cost Drivers:</b>
